

broonie

empowering schools with cutting edge tools

AI is everywhere .. But not in school

The majority of UK teachers and pupils do not have access to AI tools at school, primarily due to data and child protection concerns

Only **2 in 10 pupils** in the UK have access to AI tools at school

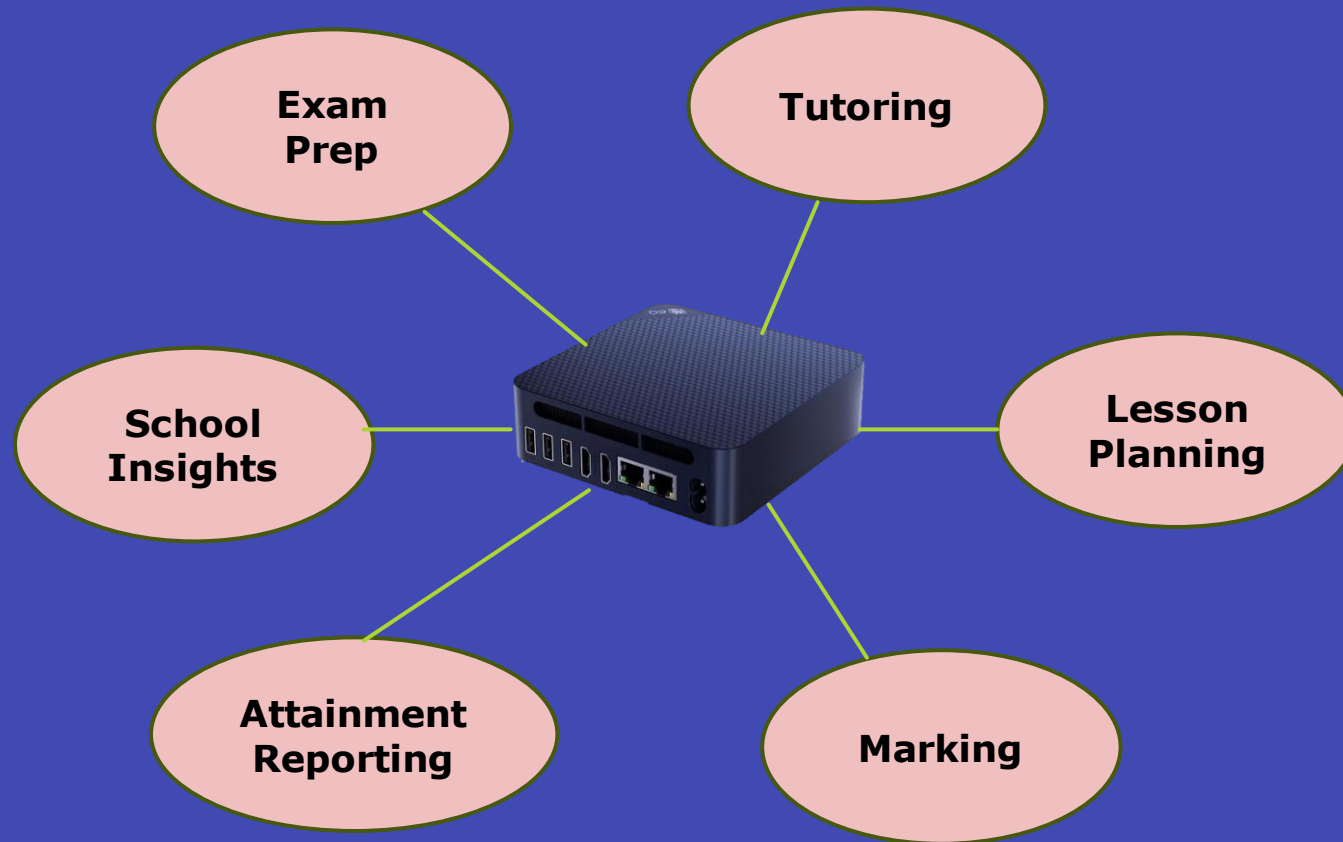

Only **60% of teachers** use AI daily for their job

2025: Several Scottish Local Authorities **revoked Microsoft Copilot** access due to data protection issues

broonie Addressing critical gaps in education technology

- Providing ***secure local AI solutions***
- Ensuring pupil *data protection and safeguarding*
- *Empowering* teachers and students

Introducing: Broonie Box and Broonie platform

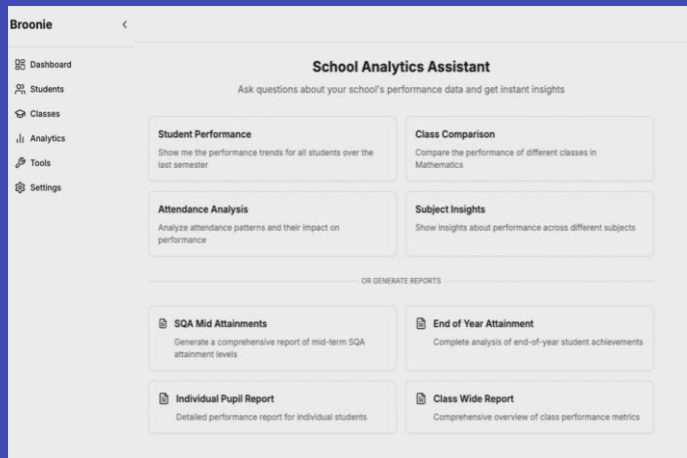

A closer look: Our product

Broonie Box

- A device that ***runs powerful AI models locally***
- Storing all data within school or local authority premises
- Eliminating data privacy concerns

Broonie Platform

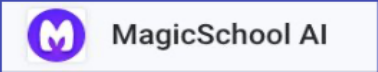

A ***custom-built educational interface*** offering AI-powered features:

attainment reporting
lesson planning
pupil insights
an AI chatbot, and more

Powerful and personalised: we operate securely on pupil data using the **Broonie Box**
